

SPECIFICATION SHEET

Tribe Sub In-Wall

Designed to seamlessly integrate with the Tribe Series and immerse the listener in a totally realistic 3D sonic experience, the Tribe In-Wall Sub redefines exactness, speed and musicality. For easy use under any conditions, the Tribe In-Wall Sub performs with astonishing presence, no matter the size of your space.

Tribe Sub Double 8 In-Wall

The Tribe Sub Double 8 In-Wall incorporates 2 active drivers with stiff ballistic carbon fiber cones. The double drivers have been designed to function without passive radiators permitting a much smaller footprint and grill opening.

Tribe Sub 12 In-Wall

The Tribe Sub 12 In-Wall incorporates a high power 12 inch driver, featuring a flat sandwich cone design and a 5.25 inch voice coil. Quick, smooth and articulate, the 12 inch active driver has been specially designed to function in tandem with the passive radiator, permitting quickness, incredible energy flow and unparalleled in-wall musicality.

Fully magnetic paintable white metal grill included.
