

Comparing Tribe Subwoofers

Tribe Double 8

Tribe Solution Sub

Tribe Solution Sub is our most convenient and feature laden subwoofer ever!

Amplifier: The Tribe Sub Double 8 includes an **outboard amplifier/crossover**, adding to the system's electronic components. The Tribe Solution Sub has an **integrated amplifier/crossover**, simplifying installation.

Woofers: Tribe Sub Double 8 is equipped with two 8" **Ballistic Carbon Fiber** woofers.

The Tribe Solution Sub features Dual 8" **Fine Strand Fiberglass** woofers with an **anodized aluminum dust cap** that **dissipates heat**. This allows the Solution Sub to be **driven harder and longer** while **maintaining peak performance**.

Wireless option: Tribe Sub Double 8 must be **physically connected** with **speaker wire**.

The Tribe Solution Sub can be wired with a **standard RCA** or **paired wirelessly with the optional wireless transmitter**.

Settings: Tribe Sub Double 8 has **crossover, volume, and phase controls**.

The Tribe Solution Sub has the same **crossover, volume, and phase controls**, and a **BASS EQ switch** with two settings. Natural is linear and provides musical, fast bass. The **High Impact setting adds 10dB** to the lowest frequencies for **substantial additional impact**.

Placement options: Tribe Sub Double 8 Could be placed **vertically** on its plinth, on its **back**, or **wall mounted**.

The Tribe Solution Sub can be placed **vertically** on its plinth, **horizontally** on feet or plinth, and on its **back** with the included tall feet. The right angle power cord also allows it to be placed closer to boundaries
