An entirely new experience!
This new generation is incomparable in musical and technical performance to all that is out there in the market. The NEW V2 transducers (woofers) are a dramatic advancement and a serious transformation of the famous 7-inch Torrent. Evolved and meticulously developed during these last 10-years at Totem, they are at the top of the world’s dynamic speaker pyramid. Torrent system remains exclusive to Totem, developed in Canada with knowledge and pride!

Aesthetically it differentiates itself via new all black anodized Torrent woofers and black anodized exclusive decoupling system. Externally visible changes to the 7-inch Torrent woofer are a slightly larger dust cap, rerouted tinsel and further dampening, making it less obstructive and offering an improved mid-range control with a substantial better bass extension.

We have applied many of the principles cultured from the evolution of the 4-inch Torrent driver used in our TRIBE SERIES. The Metal V2 and Fire V2 now both employ a different crossover in the tweeter section and also a different internal bass tuning design.

The soundstage of the NEW Element Metal V2 is even deeper than its predecessor by a ratio of almost 2:1 all due to the aforementioned Torrent 7-inch driver refinement process that lasted nearly 5 years. The imaging is also more expansive and 3D like than before, extending much further beyond the physical location of each speaker.

The NEW Element Fire V2, when compared to its predecessor, is easier to drive and placement is more flexible. Now it is the most life-like, full-range sounding 2-way bookshelf monitor design that will effortlessly exceed the performance of many similarly priced and more expensive towers. This monitor can even be used for mastering recordings thanks to its incredible accuracy across its entire frequency response spectrum, along with colossal clarity and speed.

The V2 version of both the ELEMENT Fire / ELEMENT Metal simply draws you into the music without any confusion whatsoever.

</thead>
</table>

**FIRE v2**

- **Dimensions:**
  - Width: 8.81” / 22.38 cm
  - Height: 16.6” / 42.16 cm
  - Depth: 11.7” / 29.71 cm

- **Frequency Response:** 30 Hz - 22 kHz
- **Impedance:** 8 ohms
- **Recommended Power:** 50 W - 250W
- **Sensitivity:** 88 dB

**METAL V2**

- **Dimensions:**
  - Width: 11.7” / 29.8 cm
  - Height: 43.5” / 110.49 cm
  - Depth: 14.9” / 37.84 cm

- **Frequency Response:** 26 Hz - 22 kHz
- **Impedance:** 4 ohms
- **Recommended Power:** 50 W - 300W
- **Sensitivity:** 91 dB

**Finishes**

- ICE
  - DUSK

MAGNETIC GRILLS INCLUDED

These will be available exclusively in the Element Series for all Totem dealers.
