

KIN
KIN BY TOTEM

The **New KIN One** doesn't follow in the steps of its predecessor as it's blazing ahead of virtually every small speaker made today. Taking advantage of Totem's latest developments in both driver development and cabinet geometry it provides an addictive auditory and aesthetic experience. Pair it with a KIN AMP and marvel at the large soundstage and message they synergistically create together.

kinbytotem.com

The **NEW KIN ONE** was created to provide a simple yet remarkable audio solution. When paired with the KIN AMP it will ensure a musical, lifelike performance.

Bass is powerful, fast and musical. Nothing is more important than creating Totem's sonic signature than phase linearity and **KIN One** offers just that. The carefully designed and chosen drivers result in a harmonious interaction, creating the perfect phase response that provides our three dimensional, almost holographic soundstage.

The **KIN ONE** speakers not only image in-between their individual positions but also towards the outside of their axis (both vertical and horizontal). In placing the Bookshelf speakers in room, one may optimize their performance by placing them closer to one another.

The **KIN ONE** can conveniently be wall mounted with the appropriate bracket. At the back of the KIN ONE is a threaded insert (1/4" -20) that allows the speakers to be mounted directly on the wall. It is best to place them very close to the ceiling.

KIN ONE

Specifications / Features

Design: Compact monitor

Tweeter: 1" Titanium Infused Soft Dome

Woofers: 4" MHEX CONE

Power Handling: 20-100w RMS

Frequency response: 65H -22kHz+-3dB(WPP)

Impedance: 6 ohm

Sensitivity: 89dB

Dimensions

(WxHxD): 5x9.5x6.25" (Bottom) 5.25(T)
/12.7 x 24.3 x 15.875(BOTTOM) x 13.335cm(T)

Weight: 6.25 lb / 2.83 kg each
