## KIN Play Mini

Your mind will wrestle with the contradiction of how something so diminutive can sound so gigantic. It doesn't seem possible, but this is exactly what Totem has been doing for three decades. It has everything the bigger, award-winning KIN Play does, just in a more compact form that fits anywhere and everywhere.

# KIN Play Mini

The **KIN Play Mini** requires no additional amplification. Simply pair it with the world's most popular sources and mobile devices and start enjoying your music.

Equipped with Bluetooth and aptx HD for wireless streaming. The **KIN Play Mini** can be easily placed in room. The analog and digital inputs allow a variety of sources to be connected: turntables to gaming consoles.

Totem recognizes the challenge that certain sources and recordings create and this is why we have equipped the new **KIN Play Mini** with both bass and treble controls, easily accessible from the remote control, allowing the listener to customize his/her sound.

The reset option ensures original settings are easily restored.

## About Totem Acoustic

Created in 1987, and celebrating our 30th anniversary, Totem's mission is to develop loudspeakers capable of reproducing a truly involving performance. Our goal is to provide designs that are affordable, cosmetically timeless, and invoke an emotional response. Music, movies, TV, and video games are accurately rendered with a powerful focus that is yet soul stirring. [totemacoustic.com](http://totemacoustic.com)
