

# SKY

Totem Acoustic has become synonymous for extraordinarily performing speakers with expansive imaging and startling bass that completely belies their compact, stylish package. Monitors like the original Model One, which reached practically mythological status in the industry and put Totem on the map, and the technologically advanced Fire featuring their revolutionary Torrent drivers are difficult acts to follow. However, the SKY follows quite rightfully in this tradition and has also set new standards of its own.

Launched worldwide at the Consumer Electronics Show in Las Vegas where, among 2.5 million square feet of displays and rooms by over 3600 companies, it managed to stand out from an overwhelming crowd and was named one of the 10 Stars of CES by the renown and discriminating What HiFi. Sensational reviews around the globe have since followed.

Purposefully designed to capture the broadest audience yet, the new Sky marries the signature Totem characteristics of enormous imaging, phase coherence, and remarkable bass response with amplifier friendly compatibility and prodigious power handling. Once again redefining the luxury bookshelf monitor category and true to Totem form, the Sky's impactful auditory abilities defy the visual expectations associated with an attractive, conveniently sized cabinet.

The Sky features an inimitable 5 1/4" woofer equipped with an oversized 3", voice coil wound with flat wire to avoid air gaps that permits an extremely long throw and an astounding power handling rating of 500 w. The tweeter is a unique, wide dispersion 1.3" soft dome powered by a formidable neodymium magnet that goes all the way out to 29.5kHz. The tweeter features a 1st order crossover composed of a very precious few, high end components. The woofer, remarkably and true to all Totem designs, is crossed over fastidiously and seamlessly.

SKY was aptly named for the wide-open nature of its sound and suitably expresses both the height of our expectations of it and its limitless potential. In an age where true value is put on flexibility, livability and simple, yet lasting, honest, musical, renditions from all types of source mediums, the new Totem Sky is born.

## ABOUT TOTEM ACOUSTIC

Created in 1987 by sound sage Vince Bruzzese, Totem's mission is to develop loudspeakers capable of reproducing a truly musical and involving performance. Our goal is to provide designs that are both affordable and real 'soul movers' for the music and surround lover. Music of any period, country or style is accurately and emotionally rendered with a powerful focus that is yet soul stirring.

# SKY

The SKY is slim, trim, and brims with the latest advancements in speaker design such as those found in the following impressive list.

## FEATURES

- A high performance 5 1/4 -inch driver featuring long throw characteristics and 3-inch voice-coil with 500W peak transient capacity.
- A 1.3" soft dome tweeter and neodymium magnet assembly with extremely wide and tall dispersion characteristics that extends all the way out to 29.5kHz.
- Lock-mitered craftsmanship ensuring uncompromising cabinet rigidity that results in consistent performance for literally decades.
- Industry unique Borosilicate dampening manages energy dissipation in a desired, controlled manner within the enclosure while keeping the cabinet musically alive.
- Sensational on and off axis response to provide an enormous and lifelike soundstage.
- Providing the ultimate in versatility and placement convenience, the Sky can be placed close or away from a rear wall, free standing or in a bookshelf, on low boy style furniture or mounted higher on a wall, and even positioned as close together as two feet and still maintain perfect imaging and an enormous soundstage.

- Single or bi-wire capabilities accommodate traditional or more advanced wiring options.

## SPECIFICATIONS

- Frequency response: 48 Hz to 29 kHz  $\pm$  3 dB
- 8 ohms nominal impedance
- Sensitivity: 87 dB efficiency
- Recommended power: 30 - 125 W
- Available in Mahogany, Black Ash or Satin White finishes
- Magnetic Grills are included
- Optional 24" Totem Custom Design Stands available for export

## DIMENSIONS (h x w x d)

6.35" x 12" x 9" / 16.2 x 30.5 x 22.9 cm
