

## SPECIFICATION SHEET

### Forest

Enter the realm of beauty with the Totem Forest. Designed for power and articulate voicing, the Forest is at ease with all types of music. Whether in stereo, multi-channel audio or a high-quality A/V application, the Forest creates a synergy between spatial imaging and dynamic power that goes beyond the usual.

The Forest offers pulse, speed and dynamic contrasts that add up to a tingling surprise factor, bringing freshness to your listening experience. With its innovative design, incredible sound extension and overall coherence, the Totem Forest allows you to discover beautiful harmonics that open up to infinite worlds of spatial sonority.

Optional grill available.
