

SPECIFICATION SHEET

Dreamcatcher Center

The Totem Dreamcatcher Center is an absolute true point source imager that will amaze you at each listening. Its light, stiff, lock mitered jointing and a true monocoque chassis ensure integrity, regardless of abrupt dynamic, temperature or humidity changes. The Dreamcatcher Center's full-size body is designed for sound-solid performance.

The Dreamcatcher Center creates a holographic, omni-directional sound with superlative, off-axis performance. Its pinpoint imaging eliminates sound shift and makes the Dreamcatcher Center a high-quality transducer that blends and performs admirably.
