Element Wood

Design Finishes

Dusk

Ice

Crafted for extreme performance, the Element Wood is a center channel specifically designed for the Element Series. Equipped with two micro-machined and hand assembled Torrent™ 6-inch woofers, it is designed for extreme performance. Offering real soundscape integration, the Element Wood is the perfect complementary unit for a full surround application.

The Element Wood comes purposefully appointed with custom-designed and machined aluminum terminal back plates, precision machined reflex ports and fabulous platinum W.B.T. connectors (bi-wireable). Available in gleaming, luxurious, 4-coat polyester finishes: Dusk/Black or Ice/White.

The Element Series is designed to integrate seamlessly with the Tribe Series, for stunning synergy in surround setups.

Magnetic grill included.
